INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Wesley International Academy, Inc.
Atlanta, Georgia

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wesley International Academy, Inc. ("the School"), a component unit of the Atlanta Public School District as of and for the year ended June 30, 2013, which collectively comprise the School's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the School's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School as of June 30, 2013 and the respective changes in financial position for the year then ended in conformity with auditing standards generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September 6, 2013, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the method of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our Audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the School's basic financial statements. The accompanying supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information has not been subjected to the auditing procedures applied in the auditing of the financial statements and, accordingly, we express no opinion on them.

Management Discussion and Analysis

As of June 30, 2013

As management of Wesley International Academy, Inc. (the "School"), we offer readers of the School's financial statement this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2013 to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the School's financial activities, (c) identify changes in the Schools financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and analysis (MD&A) is intended to highlight significant transaction, events, and conditions, it should be considered in conjunction with the Basic Financial Statements found on pages 8 through 13.

Financial highlights

- At the end of the current fiscal year, unassigned fund balance for the general fund was \$278,739.
- The assets of the School exceeded its liabilities at the close of the most recent fiscal year by \$116,693 (net assets).
- At the end of the current fiscal year, the note payable had an ending balance of \$232,670.

Overview of the financial statements

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all the School's asset and liabilities, with the difference between the two reported as net assets. Over time, increases of decreases in net assets may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The Statement of activities presents information showing how the School's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected funding and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School that are principally supported by district, state, and federal funding (governmental activities). Basic instructions, school administration, and food services are examples of the School's governmental activities.

Wesley International Academy, Inc.
 Management Discussion and Analysis
 As of June 30, 2013

The government-wide financial statements include only the School itself, which is a component unit of the Atlanta Public Schools, Georgia. The Atlanta Public Schools, Georgia includes the operations of the School in their operational results.

The government-wide financial statements can be found on pages 8 and 9 of this report. Comparison of the condensed statement of net assets and the statement of activities are provided below.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the operations of the School are presented in governmental funds only.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar

Wesley International Academy, Inc.

Management Discussion and Analysis

As of June 30, 2013

information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund financial statements provide reconciliation to facilitate this comparison between governmental funds and governmental activities.

The School maintains individual government funds. Information is presented separately in the governmental funds balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, which is considered to be the School's only major fund.

The basic governmental fund financial statements can be found on pages 10 through 13 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 14 of this report.

As noted earlier, net assets may serve over time as a useful indicator of the School's financial position. In the case of the School, assets exceed liabilities by \$116,693 for the year ended June 30, 2013.

A portion of the School's net assets reflects its investment in capital assets (e.g., furniture, fixtures and equipment, and leasehold improvements), less any related debt used to acquire those assets that is still outstanding. The School uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the School's investment in its capital assets is reported net of debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Financial analysis of the Government's Funds

As noted previously, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the School's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a School's net resources available for spending at the end of the fiscal year. The general fund is the main operating fund of the School. At the end of the current fiscal year, unassigned fund balance of the general fund was \$278,739.

General Fund Budgetary Highlights

The School's actual revenues exceeded budget revenues by \$381,439 due mainly to higher student enrollment than what was initially expected. Actual expenditures exceeded budgeted expenditures by \$534,484 due mainly to the Schools payroll, relocation and facility costs being higher than budgeted.

Wesley International Academy, Inc.
Management Discussion and Analysis
As of June 30, 2013

Capital Asset

The School's investment in capital assets for its governmental type activities as of June 30, 2013, amounts to \$59,647. This investment in capital assets includes furniture, fixtures and equipment. Additional information on the School's capital assets can be found in Note 4.

Debt Administration

The School's note payable at June 30, 2013 totaled \$232,670. Additional information on the School's long-term obligations can be found in Note 5.

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

1. Organization

Wesley International Academy, Inc. (a Georgia Nonprofit Corporation) (the School), provides educational services to students in grades K-8. The governing body of the School is the Board of Directors, which is currently comprised of nine members. Information presented in these financial statements only reflects the financial position and activities of the School.

The general operating authority of the School is contained in O.C.G.A. (Official Code of Georgia Annotated) 20-2-2060, Georgia Statutes. The School operates under a charter of the sponsoring school district, which is the Atlanta Public Schools, Georgia (the "District"). The current charter is effective until June 30, 2013. At the end of the charter's term, the District may choose not to renew the charter under the grounds specified in the underwriting of the charter. In this case, the District must notify the School at least 90 days prior to the charter's expiration. During the term of charter, the District may terminate the charter if good cause is evident. The School is considered a component unit of the Atlanta Public Schools, Georgia.

2. Significant accounting policies

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the period earned and expenses are recognized when a liability is incurred.

All governmental fund financial statements are reported using a current financial resources measurement that focuses on a modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues, except for certain grant revenues, are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Available means collectible within the current period, or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recorded when the related fund liability is incurred. However, principal and interest on general long-term debt is recorded as expenditures only when payment is due.

The School's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Accordingly, the financial statements are organized on the basis of funds. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, expenditures, and other financing sources and uses.

Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The School reports the following major governmental fund:

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

General Fund - the general operating fund of the School. It is used to account for all financial resources not required to be accounted for in another fund.

Fund balance

The School implemented Government Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions as of July 1, 2010. This new standard changed the overall definitions and classifications of governmental fund balance.

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net assets". Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the School is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School's fund balances are classified as follows:

Non-spendable Fund Balance – These are amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – These are amounts with limitations imposed on their use by external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Committed Fund Balance – These are amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School's highest level of decision-making authority.

Assigned Fund Balance – These are amounts that are constrained by the School's intent to be used for specific purposes, but are neither restricted nor committed.

Un-assigned Fund Balance – These are amounts that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. This is the residual classification for the general fund.

Cash and cash equivalent

Cash consists of cash on hand at the School and a checking account held at the financial institution. The School does not have any cash equivalents.

Concentrations of credit risks

Custodial credit risk - Custodial credit risk is the risk that in the event of bank failure, the School's deposits may not be returned to it. The School does not have a written policy regarding custodial credit risk for deposits. At June 30, 2013, the School's deposits had a carrying balance of \$1,024,004.

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

Capital assets

Capital assets are reported in the applicable governmental columns on the government-wide financial statements. Capital assets are defined by the School as assets with an initial individual cost of more than \$2,500 and an estimated useful life of more than 1 year. Such assets are recorded at historical cost. Donated capital assets are recorded at their estimated fair market values at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the School are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life (years)</u>
Furniture, fixtures and equipment	3

Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. In the fund financial statements, governmental funds report the face amount of debt issued as other financing sources and payments of debt principal as other financing uses.

Revenue sources and recognition

Revenues for current operations are received primarily from the State of Georgia through the District pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 20-2-2060, Georgia Statutes, the School reports the number of full-time equivalent (FTE) students and related data to the District. Under the provisions of Section 20-2-2060, Georgia Statutes, the District reports the number of FTE students and related data to the Georgia Department of Education (GDOE) for funding. Funding for the School is adjusted during the year to reflect revised calculations by the GDOE under the Georgia Education Finance Program and actual weighted FTE students reported by the School during designated FTE student survey periods.

The School receives federal awards for the enhancement of various educational programs. This assistance is generally based on applications submitted to and approved by various granting agencies. These federal awards may have eligibility requirements whereby the issuance of grant funds is withheld until qualifying expenditures are incurred. Revenues for these awards are recognized only to the extent that eligible expenditures have been incurred.

Additionally, other revenues may be derived from various fundraising activities and certain other programs.

Use of estimates

The process of preparing financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Income taxes

The School is a charter school under the District, which qualifies as a tax exempt organization, and is, therefore, exempt from income tax. In addition, the School has applied for income tax exemption with Internal Revenue Service and its application is in pending status. Accordingly, no tax provision has been made in the accompanying financial statements.

3. Government-wide and fund financial statements

The government-wide financial statements consist of a statement of net assets and a statement of activities. These statements report information on all of the non-fiduciary activities of the School. As part of the consolidation process, all interfold activities are eliminated from these statements. Both statements report only governmental activities as the School does not engage in any business type activities.

Net assets, the difference between assets and liabilities, as presented in the statement of net assets, are subdivided into three categories: amounts invested in capital assets, restricted net assets, and unrestricted net assets. Net assets are reported as restricted when constraints are imposed on the use of the amounts either externally by creditors, grantors, contributors, or laws or regulations of other governments, or enabling legislation.

The statement of activities presents a comparison between the direct and indirect expenses of a given function and its program revenues, and displays the extent to which each function contributes to the change in net assets for the fiscal year. Direct expenses are those that are clearly identifiable to a specific function. Indirect expenses are costs the School has allocated to various functions. Program revenues consist of charges for services, operating grants and contributions, and capital grants and contributions. Charges for services refer to amounts received from those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Revenues not classified as program revenues are reported as general revenues.

Separate fund financial statements report detailed information about the School's governmental funds. The focus of the governmental fund financial statements is on major funds. Therefore, major funds are reported in separate columns on the fund financial statements. Reconciliation is provided that converts the results of governmental fund accounting to the government-wide presentation.

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

4. Capital assets

Capital assets activity for the year ended June 30, 2013 was as follows:

	Balance at July 1, 2012	Additions	Dispositions	Reclass	Balance at June 30, 2013
Non-depreciable assets:					
Construction in progress	\$ 63,509	\$ -	\$ -	\$ (63,509)	\$ -
Total non-depreciable assets	63,509	-	-	(63,509)	-
Capital assets depreciated:					
Furniture, fixtures and equipment	131,261	2,488	(15,394)	63,509	181,864
Leasehold improvements	92,181	6,158	(98,339)	-	-
Total assets depreciated	223,442	8,646	(113,733)	63,509	181,864
Less accumulated depreciation:					
Furniture, fixtures and equipment	(117,406)	(20,205)	15,394	-	(122,217)

Total accumulated depreciation	(130,575)	(105,375)	113,733	-	(122,217)
Total governmental activities	<u>156,376</u>				<u>59,647</u>
Capital assets, net	<u>\$ 156,376</u>				<u>\$ 59,647</u>

Depreciation expense for the year ended June 30, 2013, in the amount of \$105,375 was recorded in the statements of activities.

5. Long-term debt

In June 2007, the School entered into a promissory note agreement with the previous operating company to cover costs associated with opening the School for \$250,000. The principal and interest payments are \$2,500 per month for a term of 20 years. The interest rate is calculated at 10.5%. The note payable balance as of June 30, 2013 was \$232,670. The School has ceased making payments on the promissory note to the operating company and is currently in negotiations with the operating company for a settlement.

6. Concentrations

Revenue sources

As stated in **Note 2**, the School receives revenues for current operations primarily from the State of Georgia through the District. The following is a schedule of revenue sources and amounts:

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

<u>Sources</u>	
State sources passed through the Atlanta Public Schools District , Georgia:	
Quality basic education (QBE)	\$ 5,443,014
Other grants	24,869
	<u>5,467,883</u>
Federal sources passed through the Atlanta Public Schools District , Georgia:	
National School Lunch Program	153,838
Title 1 funding	128,314
	<u>282,152</u>
Other revenue:	
Before/after care	166,531
Food service	50,786
Fundraising, donations and other revenue	70,269
Field trip fees & summer camp	39,158
	<u>366,744</u>
Total revenues	<u><u>\$ 6,076,779</u></u>

7. Commitments and contingencies

Federal and state grants

The School participates in federal and state grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2013 may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore no provision has been recorded in the accompanying financial statements for such contingencies.

Facilities

Beginning July 1, 2012 and ending on June 30, 2013, the School has committed payments for the School's facility use to a third party company. The terms of the lease agreement requires the School to pay an annual base rate of \$612,000 in addition to real property tax assessments, personal property tax and insurance premiums. Total rent expense recorded in the statement of activities for the year ended June 30, 2013 was \$641,593. As of June 30, 2013, there was \$90,828 in outstanding facility lease payments due.

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

Beginning July 1, 2013 and ending on June 30, 2014, the school entered a lease agreement for the School's facility with Atlanta Independent Public School System. The terms of the lease agreement does not require any base rent payment from the School.

8. Due to operating company

The School has entered into multiple agreements with the operating company. The operating company was responsible for organizing, developing, managing, staffing, and operating the School. The School has ceased making payments to the operating company and is currently in negotiations with the operating company for a settlement.

The due to operating company consists of the following as of June 30, 2013:

	Management fees & services	Working capital	Due to (from)
Beginning balance	\$ -	\$ -	\$ -
Invoiced	868,322	-	868,322
Payments	(523,335)	-	(523,335)
Adjustments	(19,029)	-	(19,029)
Management contribution	-	(85,000)	(85,000)
Ending balance	<u>\$ 325,958</u>	<u>\$ (85,000)</u>	<u>\$ 240,958</u>

9. Retirement plan

Substantially all teachers, administrators, and non-instructional personnel of the School are members of Teachers Retirement System of Georgia ("TRS") a cost-sharing multiple-employer defined benefit public employee retirement system. TRS was created in 1943 by an act of the Georgia General Assemle and is administrated by a ten member board of Trustees. TRS is funded by a combination of employee, employer, and State of Georgia contributions. Benefits are established by State statute and provide retirement, death, long-term disability, survivor, and health insurance premium benefits.

Plan members are required to contribute 6 percent of their annual covered payroll and the School is required to contribute 11.41 percent of the covered payroll. The contribution requirements of plan members and the school are established and may be amended by the TRS board of trustees.

10. Risk management

The school is exposed to various risk of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; general liabilities; and natural disaster for which the school carries commercial insurance.

Wesley International Academy, Inc.
Notes to Financial Statements
June 30, 2013

11. Subsequent events

The School evaluated subsequent events through the date the financial statements were available to be issued. The School is not aware of any subsequent events which would require recognition or disclosure in the accompanying consolidated financial statements.

For the period ended June 30, 2013

1. Budgetary Information

Budgetary basis of accounting

Annual budgets are adopted for the entire operations at the combined governmental level and may be amended by the board of directors (the "Board"). The budgets presented for the fiscal year ended June 30, 2013 have been amended according to Board procedures. Budgets are adopted in full accrual basis accounting. The legal level of budgetary control is the fund level.

**REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH THE GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Wesley International Academy, Inc.
Atlanta, Georgia

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wesley International Academy, Inc. ("the School"), a component unit of the Atlanta Public Schools, Georgia as of and for the year ended June 30, 2013, which collectively comprise the School's basic financial statements, and have issued our report thereon dated September 6, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not

express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT LETTER

To the Board of Directors
Wesley International Academy, Inc.
Atlanta, Georgia

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Wesley International Academy, Inc. ("the School") as of and for the year ended June 30, 2013, which collectively comprise the School's basic financial statements.

We issued our report on internal control over financial reporting and on compliance and other matters dated September 6, 2013. Disclosures in that report, if any, should be considered in conjunction with this management letter.

There are audited findings that are required to be reported by Government Auditing Standards. However, during our audit, we became aware of several matters that are opportunities for strengthening internal control and operating efficiency. We will review the status of our comments during our next audit engagement. We have already discussed many of these comments and suggestions with personnel at your organization. We will be pleased to discuss these comments in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Our comments are summarized as follows:

Current Year Comments and Recommendations

There were no comments or recommendations for the current year

Prior Year Comments and Recommendations

There were no comments or recommendations for the prior year

This management letter is intended for the information of the School's management, and is not intended to be and should not be used by anyone other than these specified parties.
